**Subject:** [EXT] U.S. Census Bureau Driver's License Administrative Records (Florida)  
**Importance:** High

Good morning Mr. Rhodes,

The U.S. Census Bureau is reaching out to the State of Florida for participation in the data sharing project to extract and transfer administrative records from the State of Florida.

The acquisition of Driver License Administrative Data, of which data may include: Driver Licenses, Identification Cards, and Junior Driver Licenses will support several initiatives towards the Census Bureau's goals for increasing the accuracy of the decennial count, and undertaking other research and data linkage projects.

To be more specific, we are looking for the following data requirements (listed on page 8 of the draft template).

Monthly data from the administration of Drivers Licensing and Identification Card Issuance for the years 2018—2023 will include, when available:

- a. Driver License Number or Identification Number
- b. Type of card
- c. Name
- d. Address
- e. Date of Birth
- f. Sex
- g. Race
- h. Eye Color
- i. Citizenship status
- j. Date Issued
- k. Date Updated

As outlined in our Memorandum of Understanding (MOU) template, the confidentiality and use provisions of Title 13 U.S.C. § 9 will protect the data Census receives. This portion of the law limits the Census Bureau's use of the information to only statistical purposes and provides that the Census Bureau cannot release any raw data or allow the information to be used against an individual by any other government agency or court. Every person with access to data on Census servers is sworn for life to protect the information as required by law. This oath legally binds them to penalties for the unauthorized disclosure of any information protected by Title 13 which include a federal prison sentence of up to five years, a fine of up to \$250,000 or both. Additionally, they must undergo comprehensive background checks and complete a mandatory annual Data Stewardship and IT Security Awareness Training. The server(s) where

the data are housed is password protected, and we restrict access to only Special Sworn Status individuals working on approved projects.

Attached for your convenience, are supporting documents to give you some background regarding basic FAQs, authority citations, data security and confidentiality.
